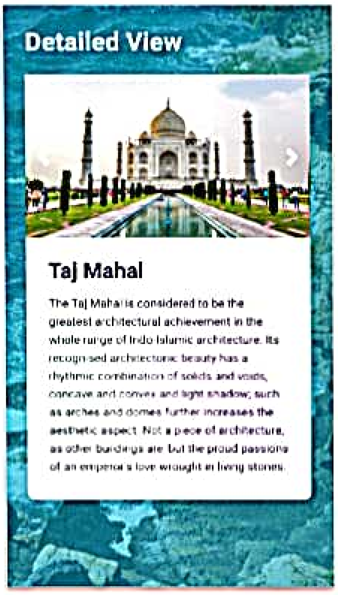
The Mysore Palace is a historical palace and the royal residence at Mysore.

Varanasi Temple

Varanasi Temple is most famous Hindu temples dedicated to Lord Shiva



Detailed View

Taj Mahal

The Taj Mahal is considered to be the greatest architectural achievement in the whole range of Indo-Islamic architecture. Its recognised architectonic beauty has a rhythmic combination of solids and voids, concave and convex and light shadow; such as arches and domes further increases the aesthetic aspect. Not a piece of architecture, as other buildings are but the proud passions of an emperor's love wrought in living stones.

Alerts

Provide contextual feedback messages for typical user actions with the handful of available and flexible alert messages.

Limited time offer: Get 10 free Adobe Stock images.

ads via Carbon

Examples

Alerts are available for any length of text, as well as an optional dismiss button. For proper styling, use one of the eight **required** contextual classes (e.g., `.alert-success`). For inline dismissal, use the alerts jQuery plugin.

A simple primary alert—check it out!

Carousel

A slideshow component for cycling through elements—images or slides of text—like a carousel.

How it works

The carousel is a slideshow for cycling through a series of content, built with CSS 3D transforms and a bit of JavaScript. It works with a series of images, text, or custom markup. It also includes support for previous/next controls and indicators.

In browsers where the Page Visibility API is supported, the carousel will avoid sliding when the webpage is not visible to the user (such as when the browser tab is inactive, the browser window is minimized, etc.).

The animation effect of this component is dependent on the `prefers-reduced-motion` media query. See

Pro-Tip! You don't need to include `frameborder="0"` in your `<iframe>`s as we override that for you.

Example

Wrap any embed like an `<iframe>` in a parent element with `.embed-responsive` and an aspect ratio. The `.embed-responsive-item` isn't strictly required, but we encourage it.

Taj Mahal

The Taj Mahal is considered to be the greatest architectural achievement in the whole range of Indo Islamic architecture. Its recognised architectonic beauty has a rhythmic combination of solids and voids, concave and convex and light shadow, such as arches and domes further increases the aesthetic aspect. Not a piece of architecture, as other buildings are, but the proud passions of an emperor's love wrought in living stones.
